

DATAPORT EEMSHAVEN Best data center location in Europe

Dataport Eemshaven has all facilities needed to support a reliable data center operation. Dataport Eemshaven is located at Groningen. The energy abundance in Eemshaven is second to none in Europe: over 8,000 MW in a broad power mix is available at close range of the dedicated data center business park.

The Eemshaven offers room to grow and the region has excellent connections with internet hubs in Amsterdam, Hamburg and the Danish region. Follow the energy and plug into your opportunities in Eemshaven.

ENERGY, CLIMATE, FIBER

- 8000 MW installed power in Eemshaven
- International hub for renewable energy
